

Make your house easy to find!

Illuminate your house number sign

Have you ever cruised up and down a street trying to find even one easily-readable house number? Emergency services also stress the importance of clear house numbers, and that's why our good-looking illuminated house number is essential. Easy to read during the day, as evening falls a sensor will automatically switch on a light and keep it on until dawn, so your number will be visible all night long. You can customise the numbers to

read anything from 1 to 9999, and the solid, waterproof case is easy to mount on a wall or post using your own screws. Measuring 19.5 x 9.5 x 4.5cm with 5.5cm-high numbers, this will make your home

Auto sensor lights up
